February 6, 2024

Dear Students,

Welcome to Trinity Washington University! We are pleased to have you as a Dual Enrollment student for the Summer Semester of 2023-24. Our Dual Enrollment program provides academic rigor and it will help to ease the high school to college transition. Our Dual Enrollment classes count towards college credit. In addition, if you have registered for SYEP you can participate in our **Earn & Learn Program** and be compensated for attending college courses this summer. Please inform your school counselor if you have registered for SYEP.

Comparatively, there are several benefits in taking Dual Enrollment classes. Students that take Dual Enrollment classes: save money, they have more credits when they start college, and they may even finish college earlier than their peers. Research shows that students who participate in Dual Enrollment classes in high school had significantly higher cumulative grade point averages three years after high school graduation than their peers who did not participate in a Dual Enrollment program.

Given these points, we are prepared to provide all of our students with a thought-provoking and invigorating academic experience. We are confident that our students will be challenged and will be inclined to discover their strengths. If you have any questions or concerns please contact the Director of Dual Enrollment & Early Programs, Hope Witherspoon.

Sincerely,

Hope Witherspoon
